WHERE IT PERFORMS

Versatility for Any Environment

Residential Excellence

Transform your house into a sanctuary. When installing our Cut Pile Wall-to-Wall Carpets in residential spaces, you gain a warm, cozy, and sound-absorbing surface that is perfect for everyday family life.

- Living rooms & master bedrooms
- Multi-story homes (acoustic insulation)
- Family areas and dens

Commercial Durability

Elevate your office, boutique, or executive environment. Engineered with a robust woven backing and 2000 GSM density, ensuring long-lasting structural integrity under daily foot traffic.

- Corporate offices & boardrooms
- Executive lounges
- Retail showrooms

THE DIFFERENCE

Why ABSTRACT?

01 Luxurious Underfoot Feel

The 10mm thickness combined with premium soft yarn provides exceptional comfort and a plush experience for any room.

02 High-Density Durability

With a substantial weight of 2000 GSM, this cut pile carpet is built to withstand daily wear and tear while maintaining its shape and texture.

03 Seamless Wall-to-Wall Installation

The standard 12ft broadloom width drastically reduces the number of visible seams, ensuring a flawless, continuous look across large spaces.

04 Enhanced Structural Integrity

The robust woven backing firmly secures the yarn tufts, extending the lifespan of the carpet and providing excellent dimensional stability.

05 Excellent Acoustic Insulation

The dense 10mm profile and substantial weight act as a natural sound barrier, absorbing ambient noise to create a quieter environment.

GOOD TO KNOW

Frequently Asked Questions

What does a "Cut Pile" design mean for this carpet?

A cut pile design means the yarn loops are cut during the manufacturing process, creating an upright pile that results in a soft, formal, and luxurious finish.

What does 2000 GSM mean for Cut Pile Wall-to-Wall Carpets?

GSM (Grams per Square Metre) indicates density and durability. At 2000 GSM, the ABSTRACT carpets are in the premium heavy-duty category, preventing crushing under heavy footfalls and maintaining a plush feel for years.

Is the ABSTRACT collection suitable for commercial use?

Yes. The 2000 GSM weight and durable woven backing make it highly resilient, easily accommodating the demands of professional commercial environments without losing its premium aesthetic.

What is the advantage of a 12-foot width for Cut Pile Carpets?

The 12-foot width drastically reduces the number of seams required during installation. For large halls and open-plan spaces, this means the carpet flows flawlessly and continuously without visible joins.

KEEP IT LOOKING NEW

Expert Installation & Maintenance

Installation Recommendations

- **Professional Installation:** Our Cut Pile Wall-to-Wall Carpets require professional installation for perfect tension and finishing.
- **Underlay:** Install over high-density PU/EPE foam for maximum lifespan and soundproofing.
- **Seamless Fit:** The 12-foot width ensures an uninterrupted, luxurious look during fitting.

Easy Care and Maintenance

- **Routine Vacuuming:** Twice weekly with a rotating brush to lift the cut pile fibres and keep the yarn upright.
- **Spot Cleaning:** Immediately blot spills with a clean, dry cloth to prevent setting.
- **Deep Clean:** Professional steam clean every 12-18 months to rejuvenate the soft yarn and maintain hygiene.
