ABOUT THIS COLLECTION

Overview

Discover the premium quality of the Graphics Box loop pile carpet. Crafted from highly resilient Solution Dyed Olefin with a substantial 1400 weight, it delivers a sophisticated, textured aesthetic designed to withstand the demands of high-traffic environments.

1400 GSM | 6-7 MM | 13.2 ft | Solution Dyed Olefin | 4 Colours

Engineered for Style and Durability

The Graphics Box collection features a robust loop pile construction that seamlessly blends modern design with structural integrity. Meticulously woven from premium Solution Dyed Olefin, this carpet ensures vibrant, fade-resistant color while maintaining a comfortable 6-7mm thickness for an excellent underfoot feel.

Finished with a high-quality felt backing for enhanced acoustic and thermal insulation, the Graphics Box collection is built for longevity. Available in a versatile 13.2 width, it provides a flawless, seamless installation, making it the perfect foundational piece for spaces that require both practical durability and a refined, high-end aesthetic.

WHERE IT PERFORMS

Versatility for Any Environment

Residential Excellence

- Living rooms & master bedrooms
- Multi-story homes (acoustic insulation)
- Home theaters (sound dampening)

Commercial Durability

Elevate your interiors with the Graphics Box collection. Engineered from heavy-duty Solution Dyed Olefin, this 1400 GSM loop pile carpet delivers a clean, textured aesthetic and outstanding durability. Complete with a premium felt backing for enhanced acoustics, it is the ultimate flooring solution for modern commercial and residential spaces.

- Corporate offices & boardrooms
- Hotel corridors & VIP lounges
- Retail showrooms & community halls

THE DIFFERENCE

Why Graphics Box?

01 Exceptional Durability

Engineered with a high-density 1400 GSM loop pile construction that resists crushing and wear, making it perfect for high-traffic environments.

02 Stain and Fade Resistance

Crafted from premium Solution Dyed Olefin, ensuring the colors remain vibrant and resist fading, even with prolonged exposure to sunlight or harsh cleaning.

03 Enhanced Acoustic Comfort

The high-quality felt backing absorbs impact sound and reduces ambient noise, creating a quieter and more focused atmosphere in commercial or residential spaces.

04 Seamless Aesthetic

Manufactured in a generous 13.2 ft width to minimize visible seams during installation, providing a flawless wall-to-wall finish.

05 Superior Crush Resistance

The tightly woven loop pile structure offers exceptional rebound, preventing unsightly track marks and indentations from heavy furniture or continuous foot traffic, ensuring your space maintains a pristine look over time.

06 Thermal Insulation & Energy Efficiency

The combination of a dense 1400 GSM pile and a premium felt backing creates a highly effective thermal barrier. This helps regulate indoor temperatures, enhancing comfort while potentially lowering energy costs in large commercial or residential spaces.

GOOD TO KNOW

Frequently Asked Questions

Where is the Graphics Box carpet best suited for installation?

Thanks to its robust 1400-weight loop pile construction, this collection is highly versatile. It is ideal for commercial spaces like corporate offices, retail stores, and hotel corridors, as well as high-traffic residential areas like living rooms and hallways.

How easy is it to maintain and clean this carpet?

Extremely easy. The Solution Dyed Olefin fibers are inherently resistant to moisture and stains. Routine vacuuming and occasional spot cleaning are usually all that is required to maintain its premium look.

Will the color of the carpet fade over time?

No, the color is locked into the fibers during the manufacturing process (solution dyeing). This means the Graphics Box collection provides excellent colorfastness and will not fade easily under UV light or after deep cleaning.

Does this carpet require an additional underlay?

The Graphics Box collection comes equipped with a premium felt backing, which provides excellent underfoot comfort and insulation on its own. However, depending on your subfloor and specific comfort requirements, our installation team can advise if an additional underlay is necessary.

KEEP IT LOOKING NEW

Expert Installation & Maintenance

Installation Recommendations

- Professional Installation: Our Cut-Loop Pile Wall-to-Wall Carpets require professional installation for perfect pattern alignment.
- Underlay: Install over high-density PU/EPE foam for maximum lifespan and soundproofing.
- Seamless Pattern: The generous width ensures patterns align perfectly during fitting.

Easy Care & Maintenance

- Routine Vacuuming: Twice weekly with a rotating brush to lift cut pile fibres.
- Spot Cleaning: Immediately blot spills. Quality yarn is designed for easy cleaning.
- Deep Clean: Professional steam clean every 12–18 months for commercial use.

Colours and textures may vary slightly from the printed or on-screen representation. Generated on 06 Nov 2026.
